| PRODUCT TYPE | | High Efficient Air Purifier | | |
| PRODUCT MODEL | | AirTeK 180 | | |
| APPLICATION | | <p>The PuraBox portable air purifier is perfect for indoor areas up to 1,500 square feet. It is ideal for average home, with performance capabilities to handle large and small areas. Plus PuraBox sanitizing function (away mode) can be used to kill virus, bacteria and mildew.</p> <p>The PuraBox utilizes Yuanda exclusive purify technology, a synergy of Ion Generation Technology in conjunction with controlled low-level Ozone Generation. It is this process that enables PuraBox to eliminate odors, smoke and tobacco smoke from your breathing space.</p> | | |
| OEM | | Brand Logo and Packing Box are available. | | |
| MAIN FEATURES | | | | |
| Scalable ozone output Exclusive PCO technology included Easy maintenance Replaceable PCO cell | | High efficiency PCO cell design 2 hour Away mode Needlepoint ionization Washable prefilter | | |
| SPECIFICATIONS | | | | |
| Technology | PCO Technology Needlepoint ionization Ozone generation | | | |
| Electric feature | AC/DC power adaptor, 38V 30W. Applicable to 100V-240V/50-60Hz | | | |
| Application | Homes, apartments, offices, small shops | | | |
| Coverage | Up to 1,500ft ² | | | |
| Color | Black | | | |
| PACKAGES | | | | |

| PRODUCT TYPE | | High Efficient Air Purifier | |
| PRODUCT MODEL | | AirTeK 800 | |
| INTRODUCTION | | <p>Passive filters wait around for pollution. FA3.0 by Yuanda with PCO filter duplicates the power of sunlight and thunderstorms to bring the solution to the pollution. You'll have three ways to improve your indoor environment: Normal Mode uses our exclusive PCO technology to produce safe, low-level, natural oxidizers and superoxide ions for basic, everyday applications.</p> <p>High Mode adds the power of activated oxygen for more coverage and increased elimination of smoke, odor, and surface contaminants.</p> <p>The Away Mode increases the maximum output of activated oxygen for incredible effectiveness in unoccupied areas.</p> | |
| OEM | | Brand Logo and Packing Box are available. | |
| MAIN FEATURES | | | |
| Five airflow speed fan Exclusive PCO technology Needlepoint and RF ion generation STN LCD display Washable purification plate Intelligent maintenance reminder | | Adjustable purifier control Remote control or manual operation Low Energy Cost Universal AC/DC power supply Eliminates smoke, odor and bacteria Replaceable PCO cell | |
| SPECIFICATIONS | | | |
| Ozone output | 360 mg/hr+ (Away Mode) | | |
| Technology | Needlepoint ionization | PCO technology | |
| | RF pulse ionization | STN LCD display | |
| Electric feature | AC/DC power adaptor, 38V 54W. Applicable to 100V-240V/50-60Hz | | |
| Ozone Density | <0.05mg/m ³ (occupied condition), 1.5mg/m ³ (unoccupied) | | |
| Ion generation | 2 million/cubic cm | | |
| Coverage | Up to 3000ft ² | | |
